State School JJ

Filer and Hammond / C3TS Architects, MCM Corporation

Doral, Florida

The project is a design-build middle school for Miami-Dade County Public Schools. Several one-story buildings are interconnected and enclosed, and are designed as Enhanced Hurricane Protection Areas (EHPA). The three-story building houses classrooms and administration. The site of the project was required to be demucked by about 2 feet.

State School Y1

PJB Associates, P.A., MCM Corporation

Doral, Florida

This fast track elementary school facility consists of three buildings; a multi-story classroom building, and two single-story Cafeteria/Kitchen building, and another administrative building with a media center.
